Start Time

11:30 a.m.

End Time

12:05 p.m.

Location

Held VIA ZOOM Conference

Next Meeting

September 16, 2020

Notes/Findings

Volumes and Blank Sailings

No material changes in outlook since last meeting. Blank sailings now extend into November.

Remaining blanks:

September	8
October	3
November	5

Volumes are 5-10% below projection.

Loaded vessels are now roughly at 95% to 100% of expected volumes but varying week to week.

Gate Hours Week of 9/8/2020

Low utilization on Tuesday after Labor Day as expected. Looking for more utilization later in the week.

Reefer Service Levels

A carrier raised a concern that off temperature reefers are now being sent to DA waiting for Shipping line approval to accept the container.

The Port still plugs in the reefer for 15 minutes to bring them up to temperature as a convenience to the trucker and get shipping line approval to accept (no change in procedure). After 15 minutes if no response the driver is sent to DA. Port policy remains the same that reefers off temperature may be sent directly to DA. Current process is more lenient to the driver.

TRAC Items

Members are asked to provide their input by putting in a TRAC case. TRAC cases are used to identify topics that need to be addressed with the Port.
